6月15日，A509教室座无虚席，来自不同专业、不同国家的同学们齐聚一堂，共同迎来了哈工大（深圳）国际青年俱乐部（HSIYC)联合主办的 APEC青年讲座系列——游戏化设计：从玩家到赢家。主讲人为哈尔滨工业大学（深圳）未来设计学院副教授陈阳老师。

On June 15, Room A509 at HITSZ was packed with students from different majors and countries.

HSIYC hosted the APEC Youth Lecture Series - Gamification Design: From Player to Winner - delivered by Dr. Yang Chen, Associate Professor at the Future Design School, HITSZ.

游戏，究竟是什么?
WHAT IS A GAME?

APEC Youth Lecture | Gamification

讲座以一个看似简单的问题开场：强制性的团建活动还可以视为游戏吗？多邻国是游戏吗？蚂蚁森林呢?

陈教授通过日常生活中的例子，引导大家重新思考“游戏”与“游戏化”的界限——游戏必须是自愿参与的、以挑战为驱动的、本身具有意义的，并且建立在规则体系之上。

The lecture opened with a deceptively simple question: is a mandatory team-building activity still a game? Is Duolingo a game? What about Ant Forest?

Through everyday examples, Prof. Chen guided the audience to redefine the boundary between "game" and "gamification" — a game must be voluntary, obstacle-driven, purposeful in itself, and built on a system of rules.

科学理论与八角分析法
THE SCIENCE & THE FRAMEWORK

讲座围绕三个核心理论展开：**心流理论、外在动机与内在动机。**通过从巴甫洛夫实验到自我决定理论的层层推进，陈教授揭示了某些体验让人沉浸其中的深层原因。

在此基础上，陈教授引入了八角行为分析法——驱动人类行为的八大核心动力：
使命感 · 成就感
创造力 · 拥有感
社交影响 · 稀缺性
未知性 · 损失规避

The lecture covered three core theories:
Flow State, Extrinsic and Intrinsic Motivation. From Pavlov's dogs to Self-Determination Theory, Prof. Chen revealed why certain experiences keep us hooked.

Building on this, she introduced the Octalysis Framework — eight core drives behind human motivation:
Epic Meaning · Accomplishment
Creativity · Ownership
Social Influence · Scarcity

GAMIFICATION IN ACTION

讲座最后，一场游戏化互动测验把现场气氛推向了高潮。同学们现场答题，检验自己对讲座内容的理解，得分最高的三位同学获得了社团专属纪念品，陈教授也收到了同款礼物。

The session wrapped up with a live gamified quiz that tested the key takeaways from the lecture. Students answered concept-based questions in real time - the top three scorers each received an exclusive piece of club merchandise, and Prof. Yang Chen was also presented with one.

游戏从来不只是游戏

Games Were Never Just Games

APEC Youth Lecture | Gamification

这场讲座留给我们的，不止是一套理论框架，更是一个值得反复琢磨的问题：既然世界上最好的游戏都在想方设法让我们沉浸其中——那我们为什么不用同样的方式，来设计自己的生活呢？

This lecture left us with more than a framework. It left us with a question worth asking: if the world's best games are engineered to keep us engaged — what stops us from designing our own lives the same way?
