Student Voices

HITSZ International Youth Club

学域（AcademiaSphere）是哈尔滨工业大学（深圳）国际青年俱乐部（HSIYC）内设的学业支持部门，致力于帮助同学们从自我学习走向共同学习，把学业压力转化为共同前进的动力。

在这一期的「学生心声 · 同伴之间」中，我们把视线从成绩和数据移开，走进每一间课堂、每一张课桌，去倾听那些发生在辅导课里的真实故事。

AcademiaSphere is the academic support department of the HITSZ International Youth Club (HSIYC), dedicated to help students move from studying alone to learning together, turning academic pressure into shared progress.

That is why, in this feature, “Student Voices”, we step away from numbers and statistics and turn instead to the people in the room — listening to what students experienced, felt, and discovered through these tutor sessions.

课堂之内
Inside the Room

走进教室的那一刻，许多同学都感受到了意想不到的氛围——辅导课不像讲座，更像一场对话，一个可以放心提问的场所。辅导老师们分享的不仅是知识，还有同样的困惑，同样的考试，同样的经历。

有同学对某节课座无虚席的场景记忆犹新，大家一起攻克难题、互相辩论，毫无沉闷感；也有同学说，小班的学习氛围让他第一次真正把每个解题步骤都听进去了。

The sessions surprised people. The smaller classroom created space for real questions. The shared identity, tutors and students sitting the same exams, changed the dynamic entirely. Explanations felt closer, more relatable, and noticeably less intimidating than in a large lecture hall.

> *“我觉得压力小多了……辅导老师理解我们的疑问……他讲课的方式让我们感觉特别亲近。”*
> —— 蒙古籍大二学生Purevdorj

> "*There was much less pressure…He already understood the problem… the way he explained things felt much closer to us.*"
> — Purevdorj, Sophomore from Mongolia

“因为辅导老师是认识的人，又与我同龄，所以他讲的每一点我都能听得更明白。”
—— 哈萨克斯坦籍大一学生Assiya

"I understood everything more clearly, because the tutor is a person that you know face to face... it's a person who's the same age as you."
— Assiya, Freshman from Kazakhstan

“辅导课感觉更像是同学之间的互相帮助和分享。辅导老师很清楚我们哪里容易卡住、哪里需要多留意……与教授上课的氛围很不一样……更开心。”
—— 印度尼西亚籍大二学生Kenneth

"*It felt more like a collaboration between students, sharing experiences. The tutor knew exactly which parts are tricky and which parts need more attention to detail... It just feels more fun and a different vibe from a professor... More enjoyable.*"
— Kenneth, Sophomore from Indonesia

“辅导课对我来说很有帮助，辅导老师讲解得清楚又好懂，放松的环境让人学得更轻松。”
—— 塔吉克斯坦籍大一学生Samira

"*The class was helpful because everything was explained in a clear and understandable way, and the relaxed atmosphere made it easier to learn.*"
— Samira, Freshman from Tajikistan

顿悟时刻
The Moment It Clicked

每一位受访同学，都清楚地记得那个“顿悟”的瞬间——而那个瞬间，无一例外，都发生在辅导课上，而不是独自面对课本的深夜。

有人在一道题上卡了整整一天，直到辅导老师一步步推完过程，才豁然开朗；有人在辅导老师把公式写下来的那一刻，脑海中零散的碎片突然拼成了一整幅图。还有人原本对特征值与特征向量毫无头绪，在辅导结束后试着画向量空间，竟然真的画明白了。

Every student interviewed could name the exact moment. A problem unravelling after hours of trying alone, formulas suddenly connecting, a chapter that had felt impossible becoming clear when explained by someone who had sat through the same confusion. The content varied, the setting did not.

“我在网上翻了很多视频，都搞不懂那些数学公式……但那个瞬间，辅导老师帮我弄明白了……等我回去自己画向量空间的时候，一下子就顺了。”

—— 孟加拉籍大一学生Brijesh

"There was a specific moment...there were no videos that could help me understand the mathematical expressions...but the tutor was able to make me understand that part...and when I reviewed it again and drew the vector space myself, it was easier for me."
— Brijesh, Freshman from Bangladesh

2025年11月11日由Jinny & Alysh主讲的辅导课
November 11th, 2025 Linear Algebra by Jinny & Alysh - First Tutor Class to Have 100+ Seats

"那天我对着那道题琢磨了一整天……怎么都想不明白……结果辅导老师一步步讲下来，就在某个瞬间，我突然开窍了。"
—— 蒙古籍大二学生Purevdorj

"*I was trying the problem all day that day...and it just didn't click when I tried it...but when the tutor explained the things, going through all the steps - there was just a moment where something finally clicked.*"
— Purevdorj, Sophomore from Mongolia

"我喜欢辅导老师用生活里的例子来讲题……这样理解起来更直观，一下就通了。"
—— 塔吉克斯坦籍大一学生 Samira

"*I liked that problems were explained using real-life examples...it helped me understand things more intuitively.*"
— Samira, Freshman from Tajikistan

走进考场
Walking Into the Exam

辅导课结束后，同学们走进考场的状态和以前完全不同了。

没有辅导课时，同学们进考场像一头扎进黑暗；现在很多题型变得熟悉了，同学们的紧张缓解了，答题更从容。辅导课也让一些同学不再独自闷在宿舍里苦思冥想，化解了学习中的孤独感。

The shift wasn't abstract. Students described walking in and recognising exercises, feeling calmer after the paper, and no longer sitting alone in confusion before an exam. The preparation had changed — and the experience of sitting that exam reflected it.

> *“上完辅导课，我感觉踏实多了，不再一个人瞎琢磨。那些难懂的概念，在课上和聪明的同学一起就能解决。大家可以互相交流、一起练习。上完这些课，我心里对考试更有底了。”*
> —— 印度尼西亚籍大二学生Kenneth

> *"I felt more composed after attending the tutorial classes. I wasn't confused alone anymore. Hard concepts could be solved in the tutorial class together with smart students. We could share opinions and practice together. I just felt more prepared for the exam after attending those classes."*
> — Kenneth, Sophomore from Indonesia

2025年12月9日由Brandon主讲的辅导课
December 9th, 2025 Electronic Technology by Brandon - Most Attentive Sophomore Year Class (First Class with 50+ seats)

“我没有以前那么紧张了……本来以为期中考试会特别难……结果发现好多题跟辅导课上练的几乎一模一样。”
—— 哈萨克斯坦籍大一学生Assiya

"I wasn't that nervous as before...I thought the midterms would be something incredibly hard...there were absolutely similar exercises as we did in tutor classes."
— Assiya, Freshman from Kazakhstan

“我发现自己之前的状态不太对，所以辅导课一开始我就去上了。到了期末考试的时候，我比期中考试自信多了。这就是为什么我觉得辅导课对我特别有帮助。”
—— 孟加拉籍大一学生Brijesh

"*I realised things weren't going the way I wanted. So when the tutor classes started, I attended them. In the final exam, I felt much more confident than in the midterm. That's why I think the tutor class was really helpful for me.*"
— Brijesh, Freshman from Bangladesh

展望未来
Moving Forward

透过这些访谈，我们看到的不是冷冰冰的数据，而是一个正在成长的社区——由爆满的课堂、解开的难题、以及愿意站上讲台的每一个你共同构成。

These interviews revealed something beyond numbers - a community built session by session, question by question, student by student.

“来一次试试吧。一起面对难题，总比一个人闷在房间里好。”—— 印度尼西亚籍大二学生Kenneth

"Just show up once and try it. Struggling together is better than burning out alone in a room." — Kenneth, Sophomore from Indonesia

2026年3月6日由Alfred主讲的辅导课

March 6th, 2026 Linear Algebra by Alfred - First Make-Up Exam Tutor Class

我们由衷感谢每一位参与其中的学生与辅导老师。正是你们的坚持与热忱，让这一切成为可能。也感谢一路相伴的每一位同学，期待未来有更多人加入我们，在这片天地里，一起学习，共同成长。

We are deeply grateful to every tutor and attendee who showed up and gave their best. Thank you to all the students who have joined us so far — we look forward to welcoming even more of you to our future activities and events, and to learning and growing together.

2026年4月27日 辅导老师答谢会

April 27th, 2026 Tutor Appreciation Gift Ceremony
